	<b>Vogels / Birds</b>						
	<b>Waarnemingenlijst van / Lifelist of: Anneke van Daalen en Jan Nijhof.</b>						
1	Deze lijst is op basis van de HBW-Birdlife Checklist version 3.0 van November 2018. De niet waargenomen soorten zijn weggelaten, tenzij het een hele familie betreft. In dat geval wordt achter de familienaam in de kolom "Zien" het cijfer 0 vermeld. De checklist omvatte 10.971 soorten. Wij hebben er 3412 gezien, dus 31%. In de B-kolom staat het aantal soorten van de betreffende familie vermeld. In de E-kolom het aantal soorten die wij van die familie hebben gezien. In de F-kolom is de Rode Lijst status van de soort aangegeven (2018): LC= Least concern / Niet bedreigd; NT= Near Threatened / Bijna bedreigd; VU= Vulnerable / Kwetsbaar; EN= Endangered / Bedreigd; CR= Critical Endangered / Ernstig bedreigd.
